

HYGAIN BN-86

BALUN 1:1 | FOR BEAMS
SO 239

Specifications

Balun : 1:1
Frequency range : 3-30 MHz
Impedance : 50 Ohm
Max. power : 1500 W PEP/SSB | 500 W RTTY
Connector : SO 239
Dimensions : ca. 83 x 159 mm

The balun is supplied with clamp to bolt to boom and coax-seal.

CAUTION

DO NOT use this balun with any type of antenna tuner or match box when the VSWR (before matching) is greater than 3:1. If the VSWR is below 3:1, a match box can be used as long as the power levels are kept below the limits shown in the Specifications. When these power and VSWR limits are exceeded, the extremely high standing wave voltage present at the feedpoint causes the breakdown voltage of the balun to be exceeded.
