

HYGAIN AV-18AVQII

HF VERTICAL
10/15/20/40/80 M.

The classic AV-18AVQ is back with improved design including three separate air dielectric Hy-Q traps for 10 through 40 Meters. A loading coil and an effective radiator is used for 80 meters -- 1.5 kW PEP.

For best performance, the 18AVQII should be ground-mounted, clear of buildings and other structures. When the antenna is ground-mounted, a radial system is sometimes not needed. In most areas, where soil surface conductivity is poor and a good ground plane is not possible, lay out ground radials to improve the efficiency of your antenna.

For extreme locations, a safety guy is recommended (common sense)

Specifications

Bands : 10, 15, 20, 40 en 80 m.

Length : 5,50 m.

Max. power : 1500 W PEP

Socket : SO 239

Mast diameter : 38-41 mm

Weight : 5,44 kg

Article id: **HYGAIN AV-18AVQII**

Price: **€ 335,00**

ex VAT € 276,86
