

HYGAIN DB-1015

BEAM 7 EL. | 10/15 M. (12/17 M.)

TAKE ADVANTAGE OF THE GOOD PROPAGATION ON 10 M AND 15 M!

The Hy-Gain Model DB-1015A is a 7 element, trapless interlaced duo-bander that operates on 10 and 15 meters. The antenna fits a 2" O.D. mast and can be rotated with a heavy duty CD-45II rotator. All hardware is stainless steel.

The exclusive HyGain's unique Para-Sleeve driven element matches the antenna input impedance to 52-ohm coaxial cable and puts the entire structure at DC ground for lightning protection.

The DB-1015 includes assembly dimensions for 10/15 meters or 12/17 meters.
