ROTARY 4-BAND MINI-DIPOLE

12/17/30/60 M.

MFJ-1775W, 1/2 wave 4-band mini-dipole for WARC Bands only. You can hardly see this mini rotatable dipole across the street. It's tiny turning radius fits on the smallest roof. Perfect for town houses, apartments and condos.

Each HF band uses a separate efficient end-loading coil wound on fiberglass forms with Teflon wire and capacitance hats at each end. Adjusting one band has little effect on other bands.
