

CUSHCRAFT AR-2

2 M. VERTICAL - RINGO RANGER

The original W1BX Ringo the Cushcraft AR-2 Ringo Ranger 1/2 wave VHF vertical is a compact size, wide bandwidth, low radiation angle and economical antenna. Since radials are not needed, you can even use the Ringo indoors. Ringos have built-in lightning protection.

Cushcraft Ringo Ranger II vertical antennas offer more gain, less windload, and more mechanical integrity than other antennas. They feature two 5/8 wave radiating elements and an adjustable 1/8 wave phasing stub. The result is a lower angle of radiation over your coverage area.

Specifications

Frequency range : 135-160 MHz (Air, 2m AMA, Marine)

No. elements : 1

Gain : 3,75 dBd

Radiation Angle : 16°

Horizontal Radiation : 360°

Ring Diameter : 12,7 cm

Height : 1,20 m

Mounting : slide over

Mast Size Range : 25-31 mm

Connector : SO 239

Max. power : 1000 W PEP

Wind load : 0,02 m²

Weight : 0,68 kg
