

FIRESTIK FG2DD - NO GROUND

CB FIBRE GLASS WHIP | 74 CM | NO GROUND

The Firestik FG2-DD is a black, fibre glass whip with 3/8" threaded male and is supplied as a complete package incl. mounting and cable.

The FG2-DD series 'No ground plane' (NGP) CB antenna kits were specifically designed to solve the lack of ground plane (counterpoise) problems found on vehicles constructed of plastic, fiberglass, wood or aluminum. This includes, but is not limited to, motorhomes, boats, automobiles and 18-wheeler trucks. Ground plane problems typically show up in the form of high standing wave ratio (SWR) and poor performance. The isolated ground plane that is built into the FG2-DD series kits will also alleviate problems on metal base vehicles that lack the sufficient ground plane for proper operation. This could be due to the size of available ground plane (ATV, bicycle, motorcycle, wheelchair, etc.), or because the operator chooses to mount the antenna in a location that is unable to properly take advantage of available ground plane. The FG2-DD series kits are designed for mounting on a flat horizontal surface. They are the ideal choice for motorhome roofs, the deck of a boat, the roof of a pick-up camper or cap, the trunk deck of a Corvette, or the roof of a fiberglass or aluminum 18-wheeler tractor. The installed height above roofline, including the spring and antenna is just less than 29 inches (737mm).

Specifications

Type : Top loaded
Impedance : 50 Ohm
Frequency range : 26-28 MHz
Max. power : 300 W PEP
Length : 73,7 cm
Mount : Yes, DV
Cable : Yes; length 5,2 m.
Connector : no

The Firestik FG2-DD package includes:

- 1x Firestik FG-2
- 1x DV-mounting
- 1x No Ground coaxial cable complete with DV-connector and PL-259 connector
- 1x Stainless Steel Spring - 3/8" female/DV
- 1x Wing Bolt
