

ITA MTFT LWA

LONGWIRE ANTENNA WITH MAGNETIC LONGWIRE BALUN 1:9 | 500 W PEP

MTFT: Magnetic Transformer For Transmit

An ideal plug and play antenna for camping or on holiday. Can also be used as sloper antenna.

This end-fed wire antenna has on one side an 1:9 magnetic longwire balun and on the other side an insulator. In most cases an extra tuner is not necessary.
