

ALAN 42DS MULTI

CB/27 MHZ HANDHELD

NOW WITH DIGITAL SQUELCH!

This is the updated Midland Alan 42DS Multi Plus 80 Channel Handheld CB Radio. Now with Digital Squelch!

This very popular compact handheld CB radio has Multi Region capability covering Europe and UK. It is highly regarded by 4x4 off-road groups and is equally perfect for keeping in touch with friends and family while caravan camping and hiking. Being a handheld radio, it can also be used on the farm, ship-to-shore as a boat CB, and even a home CB.

This Midland Alan 42DS runs on 6 or 8x rechargeable AA batteries (not included), so it can be used in or out of your vehicle.

A car adaptor kit is included which includes a clip on DC converter to run the radio from the car's electrics.... and a flying lead with a SO239 antenna socket fitted which can be easily connected to a mobile antenna (not supplied) of your choice for greater range.

What's unique about the Midland Alan 42DS Plus is the capability to quickly select any of the European CB Bands. The large display can also be illuminated for night use.
