

# TTI TCB-900

## CB MOBILE TRANSCEIVER

### 12 VDC/24 VDC

The TTI TCB-900 CB radio is the latest model in the TTI CB range with an integral front speaker developed to give outstanding performance with clear and crisp audio. Out of the box it has the option for either a traditional bracket mount or it can be mounted in a DIN sized hole.

The TCB-900 also has a very short back making it easy to fit in apertures of limited size and also includes a three colour selectable LCD display.

Especially for the truck drivers the loudspeaker as well as microphone connector are positioned at the front. The microphone has Up/Down/Lock buttons.
