

AMERITRON ARI-500

AUTO BANDSWITCHING RADIO INTERFACE FOR ALS-500/ALS-600/ALS-1300

Let your rig auto bandswitch your ALS-500M or ALS-600 Amplifier!

The Ameritron ARI-500 Amplifier Radio Interface reads band data from your Icom, Yaesu, Kenwood or Alinco transceiver so they can remotely and automatically bandswitch your ALS-500M and ALS-600 amp. Lets you mount your ALS-500/600/1300 out-of-the-way in your trunk. Works with serial numbers above 13049.

The ARI-500 will also work with the newer ALS-600(S)X and ALS-1300X. The ALS-600(S)X has A and B remote jacks on the front panel; the ALS-1300X on the back panel.
