

MIRAGE B-320G

2 M. LINEAIR | PREAMP
OUTPUT 200 W

The B-320G all-mode Linear Amplifier including Low Noise Preamp is well suited for use with handheld as well as with a transceiver. Choose input power 0.25 - 10 W or 10-50 W. Only at 3 or 50W input power the B-320G will give you up to 200 W output power.

First class stripline technique provides excellent RF performance. The B-310G is protected against reversed polarity.

Power curve

Input 0,3 W : Output 1,5 W | 132 W (LO/Hi input)

Input 0,5 W : Output 4 W | 165 W (LO/Hi input)

Input 3 W : Output 32 W | 200 W (LO/Hi input)

Input 10 W : Output 95 W

Input 25 W : Output 165 W

Input 50 W : Output 200 W

Specifications

Frequency : 144-148 MHz

Modes : FM, SSB, CW

Low Noise Preamp : yes, 15 dB

Consumption : 15 A

Supply voltage : 13,8 VDC

Connections : SO 239

Dimensions : W 197 x D 248 x H 70 mm

Mobile Bracket is included.
