

MFJ 1317

COMPACT SWITCHING POWER SUPPLY

This MFJ 1317 Miniature Switching Power Supply can deliver up to 40 Watts (13.8 VDC at 2.89 Amps) of reliable power anywhere in the world!

Its an incredibly tiny 4" x 2" x 1" and weighs just 10 ounces including output power cord and connector. It has an output DC cable with a standard MFJ coaxial DC power connector (2.1mm ID, 5.5mm OD) that fits most MFJ and other ham accessories and QRP rigs.

Its perfect for QRP rigs needing up to 2.89 Amps.

The MFJ-1317 Mini Switching Power Supply works for input voltages 100-240 VAC and power line frequencies 47-63 Hz. Use the MFJ-1317 almost anywhere in the world by plugging in an AC power cord with an appropriate wall plug for that country (not included, laptop computer AC cord recommended).

The MFJ-1317 is protected from overvoltage, overcurrent, and overtemperature. It has excellent 1% line and 5% load regulation and 1% peak to peak ripple and noise. Operating temperature is 0-40 degrees Celsius. Mean time between failure is 100,000 hours at full load at 25 degrees Celsius ambient.
