

KPS-28SW

SWITCHING POWER SUPPLY ANALOGUE

9-15 VDC | 20 A CONT.

High Quality at a low price ! The KPS-28SW is a very compact Switching Power Supply with variable output voltage, 20 A continuous.

Features

- Very compact, switching power supply, super lightweight
- Metal housing
- Has combined V-/A-meter (analogue)
- Noise offset control to suppress noise
- Connection on backside
- Protection modes include short circuit and overload
- Has internal, temperatur controlled fan

Specifications

Input voltage : 220 VAC

Output voltage : 9-15 VDC, continuously adjustable

Output voltage tolerance : < 2%

Output ripple/noise : < 80 mVp-p

Output current : 20 A continuous | 28 A max.

Dimensions : W 155 x H 70 x D 200 mm (projections not included)

Weight : approx. 1,6 kg
