

SPS-50-II / SPS-5055

SWITCHING POWER SUPPLY

ANALOGUE | 9-15 VDC | 50 A CONT.

The SPS-50-II is a super lightweight switching power supply.

Features

- Rugged metal housing
- Separate V- and A-meter (analogue)
- Frontside has socket to fit cigarette lighter plug (max. 10 A) and two DC terminals max. 3 A
- Noise offset control to detune the switching frequency
- Short circuit and overload protection
- Low noise fan on the back

Specifications

Input voltage : 220-230 VAC/50-60 Hz (fuse on backside)

Output voltage : 9-15 VDC, adjustable | Fixed 13,8 VDC with switch at backside

Current : 50 A continuous

Dimensions : B 170 x H 125 x D 260 mm

Weight : approx. 2,68 kg
