

SPS-30-II / SPS-3035

SWITCHING POWER SUPPLY ANALOGUE

9-15 VDC | 30 A CONT.

The SPS-30-II is a super lightweight switching power supply with adjustable output voltage 9-15 VDC.

Features

- Rugged metal housing
- Separate V- and A-meter (analogue)
- Frontside has cigarette lighter socket (max. 10 A) and two DC terminals max. 3 A
- Noise offset control to detune the switching frequency
- Short circuit and overload protection
- Low noise fan on the back

Specifications

Input voltage : 220-230 VAC/50-60 Hz (fuse on backside)
Output voltage : 9-15 VDC, adjustable | Fixed 13,8 VDC with switch at backside
Current : 30 A continuous; 35 A briefly
Dimensions : B 170 x H 125 x D 225 mm
Weight : approx. 1,98 kg
