

MFJ 836H

ALL-IN-ONE RF AMMETER/SWR/WATTMETER

The MFJ-836H is an all-in-one RF Ammeter/SWR/Wattmeter! You can quickly determine feedpoint impedance and monitor your antenna system for detrimental changes under power.

Read RF current in three calibrated ranges 3, 10, 30 Amperes. A large 3-inch lighted easy-to-read Cross-Needle meter lets you read SWR, forward (300/3000W) and reflected power (60/600W) simultaneously.

MFJs exclusive TrueActive™ circuit gives you true peak or average power readings.
