

VECTRONICS PM-30UV

VHF/UHF SWR/POWER CROSS NEEDLE METER

The Vectronics PM-30 is a SWR/Power cross needle meter for VHF and UHF.

The PM-30UV can simultaneously measure and display forward power, reflected power and SWR in the frequency range of 100 to 500 MHz. Accuracy of the readings is assured because the PM-30UV features a true shielded directional coupler. The back lit meter can also display either peak or average power readings.

Specifications

Frequency range : 100-500 MHz
Type meter : Cross Needle Meter *)
Scale : 30/300 W | Measures peak and average power
Connectors : SO 239 (PL-Female)
Afmetingen : B135 x H146 x D89 mm

*) One scale indicates Forward Power, another scale indicates Reflected Power and SWR is indicated at the crossing point of the 2 needles.
