

KPO DG-503N

DIGITAL SWR/POWER METER

1,6-60 MHz + 125-525 MHz

The KPO DG-503 N is a high quality digital SWR/Power meter for accurate measuring of forward power, reflected power and SWR on HF, VHF and UHF frequencies. The meter has separate couplers for HF/6M and VHF/UHF and a large 3,5" LCD display with backlight.

The meter has N-female connectors for the VHF/UHF range.

Specifications

Frequency range : 1,6-60 MHz + 125-525 MHz
Type meter : digital
RF coupler : separate couplers for HF/6M and VHF/UHF
Technical construction : SMD
Max. power handling : 200 W
Min. power input SWR : 1 W
Precision : $\pm 5\%$
Impedance : 50 Ohm
Voltage : 12 V (DC cable is included)
I/O connectors HF/6 M : 2 x PL-female (SO 239)
I/O connectors VHF/UHF : 2 x N-female
Dimensions : W140 x H84 x D122 mm
Weight : 750 g
