

MFJ 868B

LARGE ANALOGUE SWR/POWER METER

This MFJ 868B is worlds largest HF SWR/Wattmeter and measures a giant 165 mm diagonally across meter scale!

This one you can See! Its huge scale gives you ultra-fine resolution and its big high-contrast numbers makes reading a breeze -- even across your shack. The meter needle position and motion gives you an accurate indication for whats going on quickly without actually reading the scale -- like your analog watch.

MFJs exclusive TrueActive™ peak reading circuit captures true peak or average forward and reflected power readings. Has 20/200/ 2000 Watt ranges makes it valuable for QRP or QRO operation. The full SWR scale makes reading SWR much more accurate and easier to read. Exclusive MFJ Wattmeter Power Saver™ circuit turns on meter only when RF power is being measured.

Specifications

Frequency range : 1,8-30 MHz

Type meter : Single AM meter

Display : 165 mm diagonally and logarithmic DC amplification

Scale : 20/200/2000 W | Measure accurately average and peak power

Power supply : Uses 12 VDC or 9 V battery (not included)

Connectors : SO 239 (PL female)

Dimensions : W 178 x H 140 x D 127 mm

Article id: **MFJ 868B**

Price: **€ 195,00**
