

HEIL SOUND CB-1 PTT

HEAVY, POLISHED-CHROME BASE STAND

The Heil Sound CB-1-PTT is a heavy, polished-chrome base stand that is an ideal foundation for the Heritage and other Heil Sound microphones. The CB-1 PTT includes a "Soft Touch" Push-To-Talk (PTT) switch on the base that may be utilized as a "Cough Switch" in Broadcast and other live sound applications. A 24" jumper cable is included for connection to the PTT control jack.

The CB-1 PTT uses standard 5/8" - 27 threading, as do all of the Heil Sound Booms and Stands, for compliance with industry standards. The base also includes a 2" riser that sets the microphone at a comfortable, convenient height.

Dimensions base: Width 101 mm (4") x Depth 165 mm (6,5").
Including cable for connection to PTT. Cable length approx. 61 cm.
