FT-450D - 100 Watt HF/50 MHz ultra compact All Mode Transceiver (CE)

Yaesu proudly introduces the new FT-450D 100-Watt HF/50 MHz transceiver with CE, 2nd generation, ultra compact HF Transceiver Series. The FT-450 series has been an enormous success among highly active operators: new licensees, casual operators, DX chasers, contesters, portable / field enthusiasts, and emergency service providers.

The new FT-450D provides World Class performance in an easy to operate package.

The basic performance remains the same as the previous FT-450: 100 Watts of power output on SSB, CW, and FM (25 Watts AM carrier), Digital Signal Processing (DSP) is utilized throughout the design, providing leading-edge performances on both transmit and receive.

Key Update Features

- Key illumination
- Foldable Front Legs
- Classically designed Dial and knobs
- 300Hz CW IF Narrow Filter (DSP)
- C/w MH-31A8J UP/DW Microphone

The FT-450D series radios will continue to be a great choice, for the highly active HAM radio operator market.
