

YAESU FTA-750L

PORTABLE AIRBAND RADIO, INCL. 8,33 KHZ + GPS

The new YAESU FTA-750L combines tradition with innovation. Born from a history of high quality communications the FTA-750L now includes a 66 channel GPS receiver for reliable navigation. Boasting an oversize full dot matrix LCD display, the FTA-750L Airband Transceiver / GPS provides full communication on the Aircraft communications Band and additionally provides VOR and ILS navigation features on the "NAV" band, and waypoint navigation with the built in GPS receiver. The FTA-750L includes NOAA weather band monitoring and the capability of programming up to 200 memory channels with a quick and easy channel recall feature. The brand new easy to operate menu system is icon driven making it simple to navigate through all of the powerful features this transceiver / GPS has to offer. Additionally the FTA-750L can easily be reprogrammed in minutes using the optional PC Programming software and the supplied USB programming cable.

- Waypoint Navigation
- GPS Position Logging
- NOAA Weather Channel Receive (U.S.A. Version Only)
- NOAA Weather Alert (U.S.A. Version Only)
- 200 Memory Channels with 15 alphanumeric characters
- Back-lit Keypad and Display
- Water Protection – IPX5 Rating
- Loud Audio (800 mW)
- High-Capacity Li-Ion Battery Pack (7.4 V 1800 mAh)
- Alkaline Battery Tray (AA x 6)

Integrated 66 Channel WAAS GPS receiver

The FTA-750L features an integrated 66 Channel WAAS GPS receiver providing the capability of quickly storing current position information as well as manually entering in waypoints for reliable navigation. When a waypoint is activated the navigation screen features a compass display with Bearing, Course over ground, distance and speed information.

GPS Position Logging operation

The FTA-750L includes a GPS Logging feature when activated automatically stores your position information at preset intervals. This is a great feature when backtracking is necessary.

ILS (Localizer & Glide Slope) and VOR Navigation

When the FTA-750L receives a VOR signal the display will automatically switch to the Navigation band screen, with CDI (Course Deviation Indicator) based on the received VOR signal.
