

YAESU SMB-201

DESKTOP COOLING FAN FOR YAESU MOBILE RADIO

Sometimes even the best equipment can get hot, for example when used in tropical zones or in certain industrial environments. Or you need a fixed place for the mobile transceiver... This is where the desktop case SMB-201 by Yaesu really shines!

The desktop case SMB-201 by Yaesu act as a support and case for various mobile transceivers. Below the radio sits a fan unit to provide cooling, even when the case is installed in narrow spaces with less than perfect ventilation. The SMB-201 includes its own power supply (SAD-11C, included). The radio is installed with 4 screws into the case, usually the speaker points upwards and is not blocked.

Dimensions : approx. W146 x D100 x H87 mm
Weight : approx. 700 g (excl. AC adapter)

Compatible Yaesu models:

- FTM-350
- FTM-100DE
