Kenwood TK-3501E | Confidence in Communications

Introducing the compact ProTalk® TK-3501 Kenwood's latest PMR446 transceiver. Sporting a new design that's easy to use and hold, the tough ProTalk® really means business. As well as clearing IP54 and MIL-STD requirements for ruggedness, it offers 16 channels, programmable frequencies and QT/DQT channel settings, a high-capacity battery and a long talk range.

All in all, it's the perfect solution for construction, retail, hospitality, warehousing, industrial, facilities management and rental fleet applications.
