

HYGAIN YRC-1X

DIGITAL ROTATOR CONTROLLER FOR YAESU AZIMUTH ROTATORS

IN STOCK SHORTLY

The HyGain YRC-1X Digital Control Unit features a large bright blue LCD display indicating the beam heading, manual and computer controlled beam heading selection and manual rotation controls. The YRC-1X is designed as a replacement controller for both AC and DC Yaesu rotators and will work with the following rotators: G-450C, G-650C, G-1000DXC and G-2800DXC.

The HyGain YRC-1X Digital Rotor Controller for AC and DC powered Yaesu rotators, includes a RS-232 COM Port and USB interface for computer control. Great for remote control of your antennas on your remote station. Extra heavy-duty AC power supply. AC/DC model type selectable. Exclusive 180 degree AutoReversal for fast longpath operation.
