

# PLASTIDIP SPRAY GUNMETAL GRAY

## RUBBER SEAL/ISOLATION

PlastiDip GunMetal delivers distinctive, one-of-a-kind color and the outstanding protection you've come to expect from PlastiDip. This popular, much-requested color is all but tailor-made for automotive projects, but is also perfect home and garden, arts and crafts, and 1,001 other DIY uses. Plasti Dip GunMetal will give any project a sleek, unique look.

Available in convenient 11-oz. aerosol cans, Plasti Dip GunMetal applies easily to almost any surface—just shake it up and spray it on! It's a fast, nearly effortless way to add a layer of protection against abrasion, corrosion, water, mild impact, and the elements. Plasti Dip GunMetal also gives coated objects a soft, cushioned grip that helps prevent skidding and slipping.

If the coating gets damaged or wears out, or if you just want to change the look of your Plasti Dipped project, Plasti Dip GunMetal peels off easily from most surfaces, leaving the material underneath in its original, pre-Dipped condition.

PlastiDip GunMetal will add unbeatable protection and unmatched style to any DIY project.

The original Plasti Dip® made in U.S.A. is an air dry, synthetic multi-purpose rubber coating that can be easily applied by spraying, brushing or dipping. Plasti Dip® resists moisture, acids, abrasion, weathering, electrical shock, skidding/slipping, corrosion; coats and gives a comfortable, controlled, color coded grip to all types of tools: lawn and garden, mechanical, electrical, woodworking, and masonry.

PlastiDip® is not just for tool handles. It can also be applied to:

Wood : seals and protects from weathering and prevents splinters  
Metal : reduces vibration, deadens sound, prevents corrosion, insulates electrically and from extreme temperatures  
Glass : shatterproofs glass objects (available in clear)  
Rope/Fabrics : weatherproofs, prevents rotting and fraying  
Plastics : protects delicate surfaces from scratches  
Rubber : weatherproofs, wear resistant  
Tools : gives color coded grip to all types of tools  
Maps : weatherproofs, tear resistant (available in clear)

Flexible, air-dry synthetic rubber coating, that can be easily applied by spraying. Spray the desired number of layers. Let the coating dry for approx. 4 hours.

The spray is extremely suitable for less accessible spots. Content: 325 ml.
