

# PLASTIDIP SPRAY BLURPLE

## RUBBER SEAL/ISOLATION

The original PlastiDip® made in U.S.A. is an air dry, synthetic multi-purpose rubber coating that can be easily applied by spraying, brushing or dipping. PlastiDip® resists moisture, acids, abrasion, weathering, electrical shock, skidding/slipping, corrosion; coats and gives a comfortable, controlled, color coded grip to all types of tools: lawn and garden, mechanical, electrical, woodworking, and masonry.

PlastiDip® is not just for tool handles. It can also be applied to:

Wood : seals and protects from weathering and prevents splinters  
Metal : reduces vibration, deadens sound, prevents corrosion, insulates electrically and from extreme temperatures  
Glass : shatterproofs glass objects (available in clear)  
Rope/Fabrics : weatherproofs, prevents rotting and fraying  
Plastics : protects delicate surfaces from scratches  
Rubber : weatherproofs, wear resistant  
Tools : gives color coded grip to all types of tools  
Maps : weatherproofs, tear resistant (available in clear)

Flexible, air-dry synthetic rubber coating, that can be easily applied by dipping. Dip the desired number of layers. Let the coating dry for approx. 4 hours. Also suitable for industrial purposes. Content: 325 ml. Coverage approx. 0,5-1 m2 per can.

Suitability for application, and performances of finished goods coated with PlastiDip, is the sole responsibility of the customer and end user. Product and item design, pre-treatment, coating conditions, quality assurance and conditions of product end use, are among the factors that affect performance of the coated products, and are outside the control of ClassicInternational. Classic International expressly denies specific or implied warranties, including warranties for fitness for a particular use or purpose.
