

PLASTIDIP SPRAY GLOSSIFIER

GIVE A GLOSSY, POLISHED LOOK TO YOUR PLASTIDIP !

NOW WITH "FADE BUSTER"

PlastiDip Enhancers are specially designed to make the already-outstanding PlastiDip home solution even better. The enhancers are easy to use and will give any PlastiDipped item a unique look.

NEW ! Now with "Fade Buster", which provides gloss UV-protection on PlastiDip coated items.

PlastiDip, whether in original dip-on/brush-on formula or aerosol variety, dries to a soft, satin finish. This look works fine for many applications, but often a different finish is desired. With PlastiDip Glossifier you can give any PlastiDipped item a glossy, polished look. PlastiDip Glossifier is ideal for automotive applications, crafts, and many more uses.

PlastiDip Glossifier is available in 11-oz. (325 ml) aerosol cans. They apply quickly and easily—shake them up and spray them on, just like our spray-on PlastiDip. Using PlastiDip Enhancers couldn't be easier; the results couldn't be better. Coverage approx. 4,6 m2 per can.

PlastiDip Enhancers are formulated to bond with the unique chemical structure of cured PlastiDip for superior adhesion and long life. PlastiDip Enhancers are not recommended for use on any other surface.

See product labels for further information.
