

BENCHER BY-2

PADDLE | CHROME

The BY-.. paddle series, thanks to its unique pivot-pin bearings, is simply the most responsive iambic paddle available today. It is also the world's runaway best seller – well over 100,000 of them have been made by Bencher and are in use all over the world.

The BY series paddles are meant to be gently stroked and squeezed for best iambic CW performance. For someone just learning CW this is easy to learn and indeed it is fun. Operators who already have good iambic skills will thrill to the capabilities of this unmatched instrument. If you are a new CW operator – this paddle should be your clear choice – learn CW on it and you will never at any price find a better instrument.
