

KENT KT-1

HAND KEY | BLACK BASE WITH BRASS COMPONENTS

The professional Kent KT-1, straight key from the good old age when morse code was the only way of communication.

The steel base of the ensures high rigidity and stability in use while high precision ball race bearings and silver plated contacts ensure smooth, reliable, trouble-free operation under the most arduous conditions.

The KT-1 is supplied with connection cable/open end to your transceiver.

All Kent hand keys and paddles are handmade in UK for over 25 years.
