

MFJ 1260

MICROPHONE CONTROL CENTER 2 MICROPHONES | 1 TRANSCEIVER

MFJ's new Microphone Control Center lets you mix and match any two microphones to any brand transceiver. Internal jumpers configure the MFJ-1260 for your microphones and transceiver.

The microphones or transceiver can have 8-pin round or 8-pin modular connectors. You do not have to change connectors or rewire- just push the button. You can use your favorite microphone with your present or new rig by pushing a button. You can instantly switch from a hifi ragchewing mic to a hard-hitting DX mic.
