

# TUBE 572B

AVAILABLE PER PIECE OR PER 2, 3, 4 PIECES MATCHED

The 572B tubes are used in a.o. Ameritron amplifiers. The tubes are available per piece or as 2, 3, 4 pieces matched. The matched versions are sorted by idle current and gain by us.

#### Specifications 572B tube

Type : 572B  
Structure : High  $\mu$  Triode 170  
Cathod Type : Oxide  
Anode Type : Graphite  
Max. Frequency for full ratings : 30 MHz  
Power Gain : 7,5 dB  
Filament Voltage : 6.3 V  
Filament Current : 4 A

#### Max Ratings

Anode Dissipation : 160 W  
Grid Dissipation : 50 W  
Anode Voltage : 2700 V  
Anode idle Current : 32 mA Class AB  
Anode Current : 275 mA  
Power Output : 300 Watt  
Physical Dimension : Max Height 170 mm | Max Diameter 52 mm
