

LIQUID TAPE SPRAY

- VERY USEFUL FOR ELECTRONIC APPLICATIONS -

The original PlastiDip® made in U.S.A. is an air dry, synthetic multi-purpose rubber coating that can be easily applied by spraying, brushing or dipping. PlastiDip® resists moisture, acids, abrasion, weathering, electrical shock, skidding/slipping, corrosion; coats and gives a comfortable, controlled, color coded grip to all types of tools: lawn and garden, mechanical, electrical, woodworking, and masonry.

PlastiDip® is not just for tool handles. It can also be applied to:

- Wood : seals and protects from weathering and prevents splinters
- Metal : reduces vibration, deadens sound, prevents corrosion, insulates electrically and from extreme temperatures
- Glass : shatterproofs glass objects (available in clear)
- Rope/Fabrics : weatherproofs, prevents rotting and fraying
- Plastics : protects delicate surfaces from scratches
- Rubber : weatherproofs, wear resistant
- Tools : gives color coded grip to all types of tools
- Maps : weatherproofs, tear resistant (available in clear)

Liquid Tape Spray

Liquid Tape Spray is a rubber coating for use as electrical tape and insulation. This flexible coating exhibits excellent protection from acid, alkaline, and abrasion, as well as sealing out moisture and salt permanently. Liquid Tape has the strongest dielectric protection on the market; 1,400 v/mil, 5 – 7 mils per coat. Plasti-Dip rubber based coating will not harden, unravel or become brittle in extreme weather conditions like competitors' vinyl based product.

Liquid Tape Spray is excellent for use in: Manufacturing of electrical connections and components for boats, trailers, RVs, autos and trucks, timers, outdoor wiring, instruments, computers, circuit boards, switches, and more!

Content: 177 ml

Suitability for application, and performances of finished goods coated with PlastiDip, is the sole responsibility of the customer and end user. Product and item design, pre-treatment, coating conditions, quality assurance and conditions of product end use, are among the factors that affect performance of the coated products, and are outside the control of ClassicInternational. Classic International expressly denies specific or implied warranties, including warranties for fitness for a particular use or purpose.
