

# PLASTIDIP SPRAY METALIZER

ADD A SHIMMERING, GOLD, SILVER OR COPPER METALLIC FINISH TO YOUR PLASTIDIP COATING!

- AVAILABLE IN 8 COLORS -

PlastiDip Graphite Pearl Metalizer is the latest new addition to the enhancer Metalizer range! It gives your Plasti Dipped item a graphite pearl metallic finish. Additional coats increases metallic appearance.

PlastiDip Enhancers are specially designed to make the already-outstanding Plasti Dip home solution even better. The enhancers are easy to use and will give any Plasti Dipped item a unique look.

Both original and spray-on PlastiDip are available in a number of ready-made colors, and the 12 tint colors allow you to mix PlastiDip in any hue you can imagine. Now, with PlastiDip Metalizer, you can further customize the colors of your PlastiDip projects. Available in Gold, Silver and Copper PlastiDip Metalizer adds a shimmering, metallic finish while letting the color of the PlastiDip underneath show through.

New Additions to PlastiDip Metalizer Enhancers Line: Blue Metalizer, Green Metalizer, Red Metalizer, Purple Metalizer, Bright Aluminium and Graphite Pearl in stock!

This rainbow of new additions work like our original Metalizer varieties, adding a colorful metallic shimmer to dried, cured PlastiDip while letting the color underneath show through. Like the other Enhancers, our new Metalizer colors work only as an addition to original or aerosol PlastiDip coatings.

All above colors of PlastiDip Metalizer are available in 11-oz. (325 ml) aerosol cans. They apply quickly and easily. Using Plasti Dip Enhancers couldn't be easier; the results couldn't be better. Coverage approx. 4,6 m2 per can.

PlastiDip Enhancers are formulated to bond with the unique chemical structure of cured PlastiDip for superior adhesion and long life. PlastiDip Enhancers are not recommended for use on any other surface.

Gold and Silver now also available in 3,79 L (gallon) cans !.

See product labels for further information.

Suitability for application, and performances of finished goods coated with PlastiDip, is the sole responsibility of the customer and end user. Product and item design, pre-treatment, coating conditions, quality assurance and conditions of product end use, are among the factors that affect performance of the coated products, and are outside the control of ClassicInternational. Classic International expressly denies specific or implied warranties, including warranties for fitness for a particular use or purpose.
