

PLASTIDIP MATTE | 650 ML

DIPPING | IF DILUTED ALSO SUITABLE FOR SPRAY GUN

- CONTAINES TOLUENE. FOR COMMERCIAL USE ONLY. -

The original PlastiDip® made in U.S.A. is an air dry, synthetic multi-purpose rubber coating that can be easily applied by spraying, brushing or dipping. PlastiDip® resists moisture, acids, abrasion, weathering, electrical shock, skidding/slipping, corrosion; coats and gives a comfortable, controlled, color coded grip to all types of tools: lawn and garden, mechanical, electrical, woodworking, and masonry.

PlastiDip® is not just for tool handles. It can also be applied to cars, rims and:

- Wood : seals and protects from weathering and prevents splinters
- Metal : reduces vibration, deadens sound, prevents corrosion, insulates electrically and from extreme temperatures
- Glass : shatterproofs glass objects (available in clear)
- Rope/Fabrics : weatherproofs, prevents rotting and fraying
- Plastics : protects delicate surfaces from scratches
- Rubber : weatherproofs, wear resistant
- Tools : gives color coded grip to all types of tools
- Maps : weatherproofs, tear resistant (available in clear)

Flexible, air-dry synthetic rubber coating, that can be easily applied by dipping. Dip the desired number of layers. Let the coating dry for approx. 4 hours.

Attention Due to the lack of interest in certain colors and small packages, manufacturer decided no longer producing these items. The following table shows the available colors in this packaging.

The clear version is the original replacement of the Color Kit base.

If you use a spray gun (low pressure; airless) to apply PlastiDip, you have to dilute the PlastiDip (dipping) up to 50% (= 1:1) with PlastiDip Thinner. See additional product information and related items below.

Also suitable for industrial purposes.

Suitability for application, and performances of finished goods coated with PlastiDip, is the sole responsibility of the customer and end user. Product and item design, pre-treatment, coating conditions, quality assurance and conditions of product end use, are among the factors that affect performance of the coated products, and are outside the control of ClassicInternational. Classic International expressly denies specific or implied warranties, including warranties for fitness for a particular use or purpose.
